The class roster appears, with various information listed for each student:

- The user's First, Last and Username is listed.
- The Role this person holds will display (Student, Instructor, Grader, etc.)
- Last Course Access shows the time and date of last entry into the course, while the Days Since Last Course Access indicates how long it's been since a student was last in your course. This is a convenient method for checking on student involvement.
- The Review Status link shows you the total number of review items. In addition, you can click on the number to display visibility and review status information.

Review Status: SCC Student Student1

The list below contains content items with the visibility status as well as review status for items that have Review enabled.

Content Item	Visibility	Review Status
/Course Materials/Module One/Ancient Egypt	Visible to this user	Reviewed
/Course Materials/Module Three/Notes on Ancient Greece		Not Reviewed
/Course Materials/Module One/Catal Hoyuk	Not visible to this user	Not Reviewed

- The Adaptive Release link shows the rules applied to this user based on all course items. This allows you to monitor a specific student's path through the course. By browsing through various folders, you can check whether an item is visible or invisible to that student, or the student has reviewed or not reviewed an item.
- The Discussion Board link displays posting statistics, including forums posted to, number of forum posts, and more.

- Early Warning System shows the number of warnings and the number of total rules that may trigger a warning. Clicking on the data in this column will open the Early Warning System data for a particular student. The Early Warning System column will only display if the tool is turned on in the course.
- View Grades is a quick link to the Grade Center.
